

Veteran Education Benefits and Standards of Academic Progress

Academic Standing at Elizabethtown College

Undergraduate students in academic good standing must maintain a minimum 2.00 cumulative grade point average. Students should review the College [catalog](#) for more information on academic standing and academic probation. All students receiving financial aid must adhere to Satisfactory Academic Progress (SAP) Standards as explained [here](#).

Veteran Benefits – Academic Probation

Veteran students that fall below academic good standing are placed on Academic Probation, not to exceed more than two consecutive semesters. The School Certifying Official will notify Veteran students on probation and notify the VA, as required by law. Veteran students may continue to enroll while on probation and their education benefits are not impacted.

Veteran Benefits – Academic Dismissal

Veteran students that do not earn academic good standing while on Academic Probation will be dismissed from the College. The School Certifying Official is required by law to report a change in academic status to the VA and education benefits may be withheld. Veteran students may appeal to register for courses using another funding option.
