Elizabethtown College

Elizabethtown College

Campus Wellness Network

“Wellness must be a prerequisite to all else, students can not be intellectually proficient if they are physically and psychologically unwell” - Ernest Boyer

What is the Campus Wellness Network?

The mission of Campus Wellness Network is to identify and support students of concern in our Elizabethtown College community. This group consists of faculty and staff who meet bi-weekly to discuss referrals. We follow up on concerns, offering assistance and exploring options.

When can I refer?

You may contact any committee member whenever you have a concern pertaining to a student. The contact information is listed in this brochure. The committee keeps all information confidential.

How do I refer a student to the Campus Wellness Network?

Any member of the Elizabethtown College community can contact CWN. You may call or email any member of the committee with your concerns

What happens with my referral?

Your referral will be presented to the committee by the contact person. The committee will discuss the support strategy for the student and determine a plan of action

BEHAVIORS OF CONCERN

Physical

- Noticeable weight gain/loss
- Lethargic/apathetic
- Sexual indiscretion
